# DARICA FIGHT NIGHT

Darica, Türkiye · 30.08.2026

From daylight at ringside to the illuminated evening stage, the Darica photographs follow the rhythm of a fight night. Entrances, exchanges, corner work and the crowd form a story that extends beyond a single bout.

Start with Adham Zemour's weigh-in face-off, published by Tunal Group on Instagram. Then follow his Darica photographs and explore the fight films, face-to-face meetings and production images from the same gala. The full archive remains available below.

The gallery also shows the face-to-face meetings and production team. It is a view of the work around the ring, useful to fighters, supporters and prospective partners. Results are displayed only where a separate sporting source has confirmed them.
